

Digital Literacy Project Report

Name: Piyush Rawat | **Registration No:** 25BAI10833 | **Branch:** CSE (AI & ML) | **Year:** 1st Year

Introduction

This project was completed as part of the Digital Literacy course. The main objective was to develop essential digital skills such as online communication, building a professional presence, understanding collaborative tools, and ensuring cyber safety.

Task 1 – Digital Literacy Infographic (Approach & Work)

For this task, I used Canva to design an infographic focused on digital literacy, safe internet practices, and professional online presence.

Task 2 – Digital Portfolio (Approach & Work)

I created and updated my profiles on GitHub, LinkedIn, and HackerRank to maintain a professional digital identity.

Task 3 – Coding & Collaboration Platforms (Approach & Work)

I solved a beginner-level coding problem on HackerRank and created a Google Form with questions on digital literacy awareness.

Task 4 – Email Etiquette (Approach & Work)

I drafted professional emails for academic and internship purposes and prepared a checklist of social media do's and don'ts.

Task 5 – Cybercrime Awareness (Approach & Work)

I selected UPI fraud as the topic and explained how such frauds happen along with practical prevention measures.

Conclusion

Overall, this project improved my understanding of digital tools, professional communication, and cyber safety. It provided practical knowledge that will be valuable in academics and future career opportunities.
